FOOTNOTES

1. EP-Q10 contains no explosive components nor does it have any explosive potential. Therefore, under the provisions set forth by 40 CFR §158.310(e)-(f)(15), Guideline Series 830.6316 explosibility data are not required for registration. A waiver is requested for this data requirement.
2. EP-Q10 is neither an emulsifiable liquid nor does the label indicate that it is intended to be diluted with petroleum solvents. The OPPTS Series 830.6319 Miscibility data requirement is not applicable per 40 CFR §158.310(e)-(f)(16). Therefore, a waiver is requested for this data requirement.
3. EP-Q10 is not an end-use intended to be used around electrical equipment. The OPPTS Series 830.6321 Dielectric Breakdown Voltage data requirement is not applicable per 40 CFR §158.310(e)-(f)(17). Therefore, a waiver is requested for this data requirement.
4. EP-Q10 would be considered substantially similar to EPA Reg. No.10324-117 with respect to composition.
